Press Release

360clean Experiences Substantial Growth in First Half of 2010

360clean has opened in six new markets since the beginning of 2010 and the success is contributed to their unique approach to the janitorial service industry.

CHARLESTON, SC, JULY 1, 2010: 360clean is gaining even more of a national footprint as the company has recently opened in six new markets where they are offering their specialized janitorial service and one of a kind franchise opportunity for the janitorial industry.

360clean specializes in providing janitorial services to medical offices and other office buildings that desire to have a clean, yet germ free environment. Additionally, the company offers general maintenance and landscape services through strategic alliances with other preferred service providers which allows the company to act as the “one stop shop” for all of their clients facility service needs. This unique approach has attracted many striving entrepreneurs to join the company as franchise owners.

“Our goal is to continue our expansion momentum, but more importantly we must continue to remain the innovative leader in our industry. We have a great deal of innovative solutions for our services in the pipeline and we look forward to the continued research of those solutions and introducing them to the marketplace beginning later this year. Our JaniMed system allows us to remain the only janitorial service provider that has taken such a specialized and hygienic approach to cleaning medical offices and we have expanded this approach to all types of commercial offices,” said Barry Bodiford, Founder and CEO.

360clean Experiences Substantial Growth in First Half of 2010

Bodiford continued by adding, “Just like the green cleaning movement, there are a few companies that are trying to get on the disinfectant band wagon. But our specialization in cleaning medical offices and other offices that want a clean, yet germ free environment goes well beyond using disinfectants. Our service training and delivery processes are totally focused on the goal of hygienic cleaning and is also environmentally conscious. And that is a one of a kind in our industry.”

360clean is now offering their janitorial services and franchises in the following markets in the United States:

Charleston, SC; Hilton Head, SC; Myrtle Beach, SC; Columbia, SC; Greenville, SC; Spartanburg, SC; Aiken, SC; Augusta, GA; Atlanta, GA; Asheville, NC; Pensacola, FL; Mobile, AL; Chicago, IL; Madison, WI; La Crosse, WI
