360clean Introduces JaniMed...A Healthcare Cleaning System

CHARLESTON, SC, JUNE 1, 2009: 360clean has begun to market their JaniMed system to all prospective clients as a beneficial service for controlling the spread of germs and infections in their facilities. 360clean implemented the system in the facilities of medical clients in 2006, but has now begun to educate all prospective and current clients on the importance of utilizing hospital grade disinfectants and cleaning procedures that are focused on infection control.

“Our commercial cleaning division services all types of commercial facilities, but our specialization is the cleaning of medical offices,” said Barry Bodiford, Founder & CEO, “but we feel it is important and advantageous for all commercial offices to consider our JaniMed cleaning system for the purpose of protecting the health of everyone in their offices and of course the visible cleanliness that our services provide.”

Additionally, 360clean offers the JaniMed cleaning system at no additional cost to their clients.
